PRODUCT INFORMATION

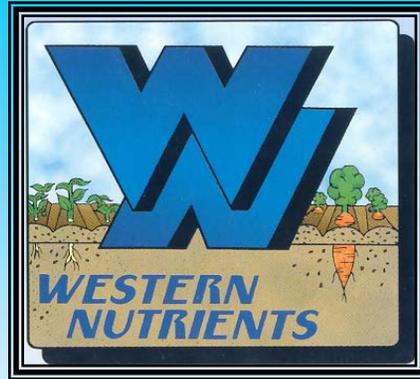

GENERAL INFORMATION

BOLL POPPER is composed of a long chain of polymeric polyhydroxy acids. These compounds owe their activity to numerous highly reactive carboxyl and hydroxyl groups. These compounds are colloidal in nature and are extremely hydrophilic (water loving). Their exchange capacity is very high and is pH dependent. They are generally classed as tetrabasic anions.

The effectiveness of these compounds as a soil amendment is attributed to: 1) their enhancement of cell wall permeability and 2) their enhancement of ion transfer. This could increase the efficacy of foliar applied defoliant providing increased defoliation and boll opening. This product can be easily applied with a defoliant.

BOLL POPPER has no defoliant properties by itself nor is it a surfactant or sticker. **BOLL POPPER** is non phytotoxic and is compatible with most defoliants for easy application.

BOLL POPPER Is a Product of Western Nutrients Corporation.

NON PLANT FOOD INGREDIENT

BOLL POPPER

Defoliant Additive ACTIVE INGREDIENT

13.5% Polymeric Polyhydroxyl Acids

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS

GENERAL

BOLL POPPER may be applied in tank mix combinations with defoliant.

Apply **BOLL POPPER** at the rate of 1 quart (1 liter) per acre plus sufficient spray mixture to obtain proper coverage with either ground or aerial equipment.

GROUND APPLICATIONS

Apply 1 quart (1 liter) of **BOLL POPPER** per acre with sufficient total defoliant spray mixture to obtain proper coverage.

AERIAL APPLICATIONS

Apply 1 quart (1 liter) of **BOLL POPPER** per acre with sufficient total defoliant spray mixture to obtain proper coverage.

MIXING INSTRUCTIONS

Always mix **BOLL POPPER** with water first, then add regular defoliant mixture. **BOLL POPPER** is not compatible with oil sprays or very low pH materials. If compatibility is questioned make a compatibility test.

NOTICE

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product is beyond the control of the manufacturer and no guarantee expressed or implied is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage resulting from its misuse as such, or in combination with other materials.
