### PRODUCT INFORMATION

#### GENERAL INFORMATION

**HUMIPLUS** Fertilizer Activator is composed of a long chain of organic carboxyl and polyhydroxide acids.

This organic complex molecule is very active with many open rings giving it a very large capacity to hold and exchange nutritive cations and anions.

The effectiveness of this type of organic additive to fertilizer will (1) enhance cell wall permeability thru the root and leaf system. (2) Greatly increase the effectiveness of cation transfer in the soil by increasing negatively charged colloidal particles capable of holding and exchanging cations.

#### Directions

##### CROPS

**HUMIPLUS** Fertilizer Activator can be applied to most vegetable crops, deciduous fruit, and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range, grasses, and most other crops.

##### PREPLANT

Apply 1 - 3 quarts to each 30 gallons of liquid fertilizer.

##### SIDE DRESS

Apply 1 - 3 quarts to each 30 gallons of liquid fertilizer.

##### IRRIGATION WATER BROADCAST SPRAY

Apply 1 - 3 quarts to each 30 gallons of liquid fertilizer.
