## SOLUBLE NUTRIENT COMPLEX

### PRODUCT INFORMATION

**NUTRAPLEX 5-18-5** is a highly concentrated nutritional solution. It is designed to meet the need for a soluble liquid minor element spray containing certain nutrients proven to be of value when applied as a properly timed foliage spray.

**NUTRAPLEX 5-18-5** is beneficial in combination with plant food and non-phytotoxic when used as directed. It is absorbed through the leafy tissue of the plant and can be translocated within the plant. **NUTRAPLEX** is compatible with most insecticides and minor elements. It is designed for use as a supplement to a well balanced fertilizer program.

**NUTRAPLEX 5-18-5** nutrients can be applied by conventional ground rig, concentrate sprayer, and by air. For improved leaf absorption add 1-3 qts. (1-3 liters ) per acre of **NUTRAPLEX 5-18-5** with **Mineral Spray** products. **NUTRAPLEX 5-18-5** also has a buffering effect on hard water.

With farms becoming larger and more specialized and farmers desiring to get crops planted earlier there definitely is a trend for applying less fertilizer at planting time and broadcasting or side-dressing larger quantities at other than planting time. **NUTRAPLEX** products are designed to supplement a well balanced fertilizer program and ensure the plants obtain proper nutrients during high growth periods which is so essential to high yields. **NUTRAPLEX 5-18-5** provides a fast method of giving plants a nutrient boost thru leaf absorption. **NUTRAPLEX** products will protect crops from nutrient deficiencies during those crucial growing periods when any drop in nutrients will result in a production drop.

**NUTRAPLEX 5-18-5** nutrients have corrected deficiencies of a great many row crops, vegetables, and ornamental plants under soil conditions ranging from high organic matter (muck) to very low organic matter and from strong acid soils ( pH 3 ) to high alkaline soil (pH 8.5) containing considerable calcium carbonate (free lime). **NUTRAPLEX 5-18-5** is effective under dry land and irrigation farming conditions. Differences in soil conditions, climate and plant varieties will determine how much more effective **NUTRAPLEX 5-18-5** nutrients are than other sources of nutrients.

**Nutraplex** and **Mineral Spray** are Registered Trademarks of Western Nutrients Corp

### SUGGESTED USES

**ALFALFA** -1-2 qts. (1-2 liters) per acre prior to bloom. Repeat every 2-3 weeks.  
**ARTICHOKES** - 1-2 qts. (1-2 liters) per acre at bud stage. Repeat every 2-3 weeks.

**AVOCADOS** -1-2 qts. (1-2 liters) per acre pre bloom.

**BLACKBERRIES, BOYSENBERRIES, RASPBERRIES,**

**STRAWBERRIES, and other small fruits** -1 qt. (1 liter) per acre pre bloom.

**BROCCOLI, BRUSSEL SPROUTS** - 1 qt. (1 liter) per acre. 1-3 applications.

**CARROTS** -1 qt. (1 liter) per acre as often as needed.

**CAULIFLOWER, CABBAGE** -1 qt. (1 liter) per acre. 1-3 applications.

**CITRUS** -1-2 qts. (1-2 liters) per acre pre bloom.

**CORN** -1 qt. to 20 gallons (1 liter to 76 liters) of water per acre. Apply when tassels first appear.

**COTTON** -1 qt. (1 liter) per acre prior to bloom. Make 4-6 applications.

**CUCUMBERS** -1 qt. (1 liter) per acre pre bloom. Make 4-6 applications.

**DECIDUOUS FRUIT and NUT TREES** - 1-2 qts. (1-2 liters) per acre pre-bloom and petal fall.

**GRAPES** - 1-2 qts. (1-2 liters) per acre prior to bloom. Make 3 applications.

**LETTUCE, CELERY** -1 qt. (1 liter) per acre as often as needed.

**MELONS** - 1 qt. (1 liter) per acre pre-bloom Make 4-6 applications.

**ONIONS** -1 qt. (1 liter) per acre as often as needed.

**PEAS and BEANS** - 1 qt. (1 liter) per acre prior to bloom.

**PEPPERS, GARLIC** -1 qt. (1 liter) per acre as often as needed.

**POTATOES** - 1-2 qts. (1-2 liters) per acre as often as needed.

**SPINACH** -1 qt. (1 liter) per acre as often as needed.

**SQUASH** -1 qt. (1 liter) per acre pre-bloom. Make 4-6 applications.

**SUGAR BEETS** -1 qt. (1 liter) per acre. Make several applications.

**TOMATOES, EGGPLANT** -1-2 qts. (1-2 liters) per acre as often as needed.

**WHEAT, BARLEY, MILO, RICE and OTHER GRAIN**

**CROPS** -1 qt. (1 liter) per acre seeding and pre-bloom.
