PRODUCT INFORMATION

CROPS

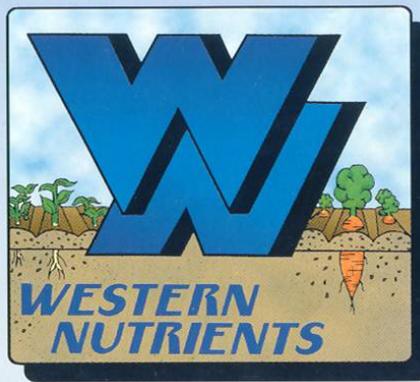

VENTURE BRAND PRODUCTS can be applied to most vegetable crops, row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamental, turf, pasture, range grasses, and most other crops.

VENTURE BRAND PRODUCTS liquid foliar fertilizer was formulated to provide a fast method to boost plants during critical or high growth periods, damage due to weather and for correction of nutrient deficiencies.

VENTURE BRAND PRODUCTS promotes seed and root development as well as a strong cell structure, when used as a supplement to a soil fertilizer program. Nutrients are needed for healthy seed development, root structure and cell structure, especially in soils where the nutrients has been depleted in sufficient quantities to cause reduced yield or stunted plants. VENTURE BRAND PRODUCTS insure against these nutrient deficiencies providing the essential nutrients to stimulate early root development and speed up crop growth.

VENTURE BRAND PRODUCTS are beneficial in combination with plant food and non-phytotoxic when used as directed. It is absorbed through the leafy tissue of the plant and can be translocated within the plant. VENTURE BRAND PRODUCTS are compatible with most insecticides and minor elements. It is designed for use as a supplement to a well balanced fertilizer program.
