

GREEN TURF DYE FORMULA B is the fast, economical way to instantly restore the green color to dormant or discolored lawns/turf.

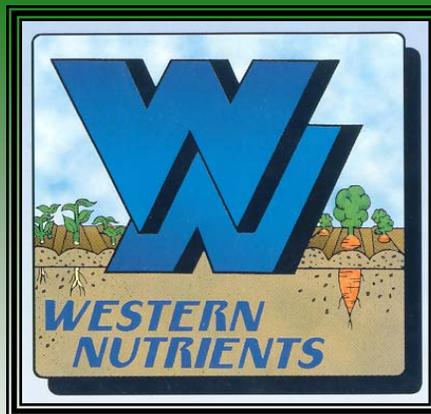

Easily applied with many types of sprayers, **GREEN TURF DYE FORMULA B** restores the beauty and natural look to any off colored turf grasses.

Very effective in drought conditions or reducing water use, perfect to spruce up your turfs color for outdoor entertaining.

Can be used in all seasons, applied in the fall and dormant turf will stay green all winter. It won't wash or wear off turf after it has been applied.

Color will last 10 to 14 weeks or until mowing removes the colored grass.

Cover cement with newspaper or cardboard to prevent staining. Allow one hour to dry, will not stain clothes or shoes after it is dried.

**NET CONTENTS 2.5 GALLON
9.47 LITERS**

SHAKE WELL BEFORE USE

Summer Applicants (Discoloration):
Considering the variation in the grass, add 4 - 10 fl. oz. (120 - 300 mL) per gallon (4 L) of water. Spray the solution at a rate of 2.5 gallons / 1000 ft. 2 (9.5 L / 93 m2).

Winter Applications (Dormant):
Add 8 - 10 fl. Oz. (240-300 mL) of Green Maker per gallon (4 L) of water. Spray the solution at a rate of 3 gallons / 1000 ft. (11 L / 93 m2).

Divot Sand:
Depending on turf, mix 4 - 8 fl. oz. with an equal amount of water. Pour solution into 100 lbs. (45 kg) of divot sand in a cement-type mixer. Mix until sand is a uniform color.

Tank Mixing Instructions: Gradually add 2 gallons of Green Turf Dye Formula B to 300 gallons of cool clear water while tank is filling. Do not pour into empty tank or when tank is completely full. Agitate well during filling and application. Clean sprayer tank thoroughly after use. Unused mixture may be sealed and used at a later date.
