PRODUCT INFORMATION

VITA GREEN is a concentrated product containing major and minor nutrients, carbohydrates, amino acids and naturally occurring plant growth promoting substances which enhance crop yields, quality and vigor.

VITA GREEN can be applied to most vegetable crops, row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, and most other crops.

VITA GREEN is a cost effective way to fortify crops against disease by strengthening the plants natural resistant system.

VITA GREEN is compatible with most pesticides add herbicides except dormant oil and lime sulfur. A compatibility test is recommended if the desired combination has not been used in the past.

SUGGESTED USE

Deciduous Fruit and Nuts: 1-4 pints/acre four times each season starting at first full leaf, then at fruit set, fruit size and fruit color.

Walnuts, Almonds and Avocados: 1-4 pints/acre three times each season starting at first full leaf.

Grapes: 1-4 pints/acre four times each season starting at first full leaf, then past bloom, early bunch set, berry size and at berry color.

Cotton: 1-4 pints/acre four times each season starting at first true leaf then first boll set, maximum boll set and two weeks before defoliation.

Tomatoes: 1-4 pints/acre four times each season starting at first true leaf then at early fruit size, fruit color and one week before harvest.

Sugar Beets: 1-4 pints/acre three times each season starting at first full leaf. Last application should be mid-season.

Alfalfa: 1-4 pints/acre immediately after each cutting during the season and three to four gallons/acre after the final cutting of the season.

Wheat, Barley, Oats and Rice: 1-4 Pints/acre tillenng and again at early cough stage.

Beans and Peas: 1-4 pints/acre

Onions, Garlic and Carrots: 1-4 pints/acre.

Corn: 1-4 pints/acre three times each season at three week intervals.

Lettuce, Celery, Cole Crops: 1-4 pints/acre four times each season starting at second true leaf and with the last application two weeks before harvest.

Asparagus: 1-4 pints/acre two times while fern is full and two to four gallons/acre two weeks before fern turns yellow in the fall.

Strawberries and other Berry Crops: 1-4 pints/acre at first early fruit set and after each picking.

Potatoes: 1-4 pints/acre four to six times each season with the first at early emergence, then evenly spaced with the last application two weeks before leaf die-down.

Citrus, Apples, Pears and other Fruit Trees: 1-4 pints/acre three times a year starting at early fruit set, then fruit size and early color.

Peppers, Cucumbers, Melons, and Squash: 1-4 pints/acre. Apply at 1-2 week intervals.

Broccoli, Cauliflower and other Vegetables: 1-4 pints/acre at first leaf then at 10-14 day intervals .

GENERAL USE: Vita Green can be used on most crops at the rate of 1-8 pints per acre.
