

# HUMIPLUS™ FULVIC ACID 8%

Humiplus Fulvic Acid 8% contains quality fulvic acid to help mobilize soil nutrients and improve their availability for plant uptake. It helps support strong plant growth and create resilient crops with nutrient healthier soil. The benefits of Humiplus Fulvic Acid 8% can be obtained through both the plant's roots and its leaf surface allowing an increased nutrient absorption rate. With this fertilizer, your plant can be on its way to improved root structures, seed germination, photosynthesis, and water absorption.

# HUMIPLUS<sup>TM</sup> FULVIC ACID 8%

## Product Information

Humiplus Fulvic Acid 8% is comprised of an organic complex molecule that has a very large capacity to hold and exchange nutritive cations and anions. The effectiveness of this type of organic additive to fertilizer will (1) enhance cell wall permeability through the root and leaf system as well as (2) greatly increase the effectiveness of cation transfer in the soil.

## Directions for use

Humiplus Fulvic Acid 8% can be applied to most vegetable crops, deciduous fruit, and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range, grasses and most other crops.
